

PPU

Pipework package

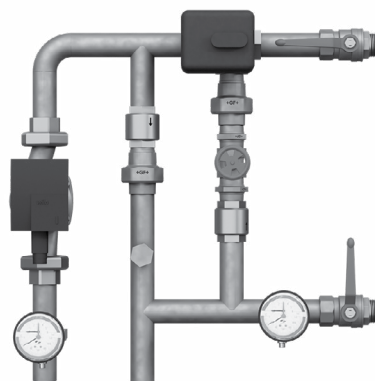

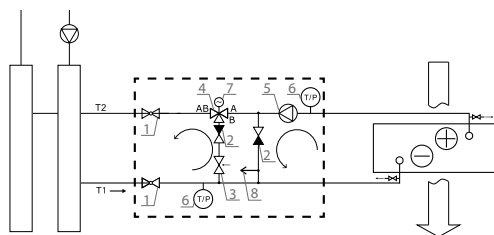

PPU-HW for heating.

PPU-CW for cooling or heating.

Pipework package can be right (R) or left (L).

The side is determined by the direction of flow of the heating / cooling medium from the heat / cold source to the unit:

- right to left – right R;
- left to right – left L.

- | | |
|---------------------|-------------------------------|
| 1. Stop valve | 5. Circulation pump |
| 2. Return valve | 6. Manometer / Thermometer |
| 3. Throttling valve | 7. Actuator |
| 4. Control valve | 8. Connection for flow sensor |

Model	Connection side	Connection diameter, mm	PPU-HW
